

Executive Function Support *Between* Support Sessions

You provide the support. We help students follow through.
NeuroLocker bridges the gap between meetings and real life,
helping students turn plans into action every day.

From this...

- Students leave appointments motivated
- Information gets forgotten
- Follow-through is inconsistent
- Staff spend time repeating guidance

To this.

- Students leave with a plan and reminders
- Information stays accessible
- Follow-through improves
- Students have support between meetings

HOW NEUROLOCKER SUPPORTS STUDENTS

1. Capture

Record meetings or academic coaching sessions.

2. Clarify

AI creates summaries and action items.

3. Act

Recommendations become actionable tasks.

4. Organize

Deadlines, tasks, and reminders stay in one place.

5. Follow Through

Students stay on track with less overwhelm and more confidence.

WHY IT MATTERS

For Students

Build independence and reduce overwhelm.

For Departments

Consistent support between appointments that scales.

For Staff

Fewer repeated reminders. More impact where it matters most.

For Everyone

Better follow-through.
Better outcomes.
Stronger support.

Built with lived experience.

Created by a neurodivergent family who spent over 10 years navigating IEPs, 504s, and the journey to college.

Let's close the gap between support and follow-through.

Let's build success - together.
